To the Citizens of Pike County:

*This report is an abbreviated summary of services provided by Pike County Health Department (PCHD) for FY 2018, December 1, 2017 through November 30, 2018. A full report is available on the PCHD website at [www.pikecountyil.org/health-department](http://www.pikecountyil.org/health-department) under Board of Health (BOH).*

PCHD is a certified Local Health Department (LHD), in compliance with the requirements in the IL Department of Public Health (IDPH) Certified LHD Code through 2020 (77 IL Admin. Code 600). The State appropriates funding each year to IDPH for the Local Health Protection Grant (LHPG). IDPH distributes the funds, by formula, to all certified LHDs to be utilized for the following mandated Public Health (PH) services: Food, Water, Sewage and Infectious Diseases. PCHD receives the minimum grant award, (\$64,4461) only partially covering costs. The appropriation had been level for over 10 years, with an approximate 2% increase in FY 18. Local costs for the under-funded, increasingly complex mandates continue to grow.

Additional Public Health (PH) services are based on local needs and available funding. PCHD depends on a combination of sources to fund much needed PH services. FY 18 Local Tax Levy provided \$238,763. The TB Levy added \$11,700 (totaling 14% of revenues). The additional 86% of the approximate \$1.8 million in FY 18 revenues includes Federal Funds, State Grants and Contracts, and Fees.

Years of reductions and cutbacks, due to the lack of secure and sustained PH funding, threatens the capacity of LHDs to protect the public's health and respond to PH emergencies. Therefore, it is critical that PCHD continues collaboration efforts and seeks opportunities to preserve and expand programs to meet growing health and wellness needs of Pike County.

Respectfully submitted,  
Anita Andress, RN, BSN  
Administrator

**Public Health - Services - Functions**

**Public Health**

- Prevents epidemics and the spread of disease
- Protects against environmental hazards
- Prevents injuries
- Promotes and encourages healthy behaviors
- Responds to disasters and assists communities in recovery
- Assures the quality and accessibility of health services

**Essential Public Health Services**

- Monitor health status to identify community health problem
- Diagnose and investigate health problems and health hazards in the community
- Inform, educate, and empower people about health issues
- Mobilize community partnerships to identify and solve health problems
- Develop policies and plans that support individual and community health efforts
- Enforce laws and regulations that protect health and ensure safety
- Link people to needed personal health services and assure the provision of health care when otherwise unavailable
- Assure a competent public health and personal health care workforce
- Evaluate effectiveness, accessibility, and quality of personal and population based health services
- Research for new insights and innovative solutions to health problems

**Core Public Health Functions**

- Assessment
- Assurance
- Policy Development
