Restaurants:

As of 11/2/2020, there have been 466 lab confirmed positive cases of COVID-19 in Pike County. That is an increase of 31 cases since Friday. Those numbers are climbing at an alarming rate. Of those 466, 127 are active, 30 are probable, 6 are hospitalized, and we have had 10 deaths.

Unless we, as Pike County residents, patrons, employees, and business owners pull together to reduce the spread of this virus, we could be subject to further mitigations and possible shutdown. It is up to each and every one of us to make a difference.
