sbargmann@pikecoilhealth.org

Pittsfield, IL –Pike County Health Department (PCHD) was notified by Adams County Health Department (ACHD) that they are extending vaccinations for those age 65 and over to include residents in Pike, Brown, Hancock, and Schuyler Counties again next week. Supported by the Illinois Department of Public Health, the goal of this expanded vaccination site is to assure older individuals who are more likely to become seriously ill from COVID infection are protected as soon as possible.

Anyone in Pike, Brown, Hancock, Schuyler, and Adams Counties who are age 65 and older may visit the following registration website at: www.adamscountytogether.com/vaccinate to make an appointment for the week of February 1-5, 2021. Individuals may also call 217-600-4VAX to schedule an appointment with one of the ACHD call center representatives.

PCHD currently has over 1,700 individuals age 65 and older on a pre-registration list to be scheduled for a vaccination. If you have already called PCHD to request a vaccine but would rather go to Adams County, please follow the above information for scheduling your vaccine. If you wish to receive your vaccination at PCHD, please call the health department at 217-285-4407 and use option 8 to leave your name, date of birth and phone number. Appointments will be scheduled based on prioritization and vaccine availability. If you have already called and left your information to be added to the pre-registration list, no further action is required.

Please note, PCHD is receiving a large number of calls. If you have provided your information to PCHD, you will be called to set up an appointment when vaccine becomes available.

Information on vaccinations in Illinois by county is now available at:
www.dph.illinois.gov/covid19/vaccinedata.

For updates on Pike County COVID-19 cases, please go to our website at
