Public Health Core Functions and Essential Services

Core Public Health Functions

- Assessment
- Assurance
- Policy Development

Essential Public Health Services

1. Assess and monitor population health status, factors that influence health, and community needs and assets
2. Investigate, diagnose, and address health problems and hazards affecting the population
3. Communicate effectively to inform and educate people about health, factors that influence it, and how to improve it
4. Strengthen, support, and mobilize communities and partnerships to improve health
5. Create, champion, and implement policies, plans, and laws that impact health
6. Utilize legal and regulatory actions designed to improve and protect the public’s health
7. Assure an effective system that enables equitable access to the individual services and care needed to be healthy
8. Build and support a diverse and skilled public health workforce
9. Improve and innovate public health functions through ongoing evaluation, research, and continuous quality improvement
10. Build and maintain a strong organizational infrastructure for public health

(“Public Health National Center for Innovations (PHNCI) and the de Beaumont Foundation 2020” <https://phnci.org/national-frameworks/10-eps>)

IPLAN (Illinois Project for Local Assessment of Needs)

Community Health Priorities 2020-2025

1. Mental Health
2. Food Insecurity
3. Access to Care

*Leading causes of death in Pike County
 (2021, most recent data available from IDPH)*

dph.illinois.gov/data-statistics/vital-statistics/death-statistics

1. Cardiovascular Diseases
2. Malignant Neoplasms
3. COVID-19
